 **25th Anniversary of the Hungarian Kidney Foundation** 

Dear Colleague,

Budapest Nephrology School is a one-week, English speaking, internationally recognized, CME refresher nephrology course which has been organized by the Hungarian Kidney Foundation at the **Semmelweis University** for the past 19 years, under the auspices of **ISN** and **ERA-EDTA**. The school is accredited worldwide by EU in Brussels. The School published a book titled "**Nephrology, Hypertension, Dialysis and Transplantation**" edited by *T. Andreoli, E. Ritz and L. Rosivall*. The 3rd new edition of the book will be published on the occasion of the 20th school this year.

During this one-week program, our distinguished international speakers provide updates in nephrology, hypertension, dialysis and transplantation. We cover the *field from molecule to bedside*, from the most recent scientific advances to the current clinical approaches. Workshops provide the possibility for close interaction with the faculty in small groups. Participants are encouraged to present their *posters*, raise *questions* and consult other colleagues on problematic cases. Programs are also arranged to visit quality dialysis and research units. The Budapest Nephrology School has always kept *high standards* and performed successfully with international positive feed-backs. So far doctors from *58 countries* have attended the school. Our success is reflected by the increasing number of participants who have repeatedly attended the school.

The school is proud of its faculty who are internationally recognized in the field. We already have *the president in-office and the past-president of ISN and also in-office president and the past two presidents of ERA-EDTA* among the speakers of this year anniversary school (August 2013). We believe that this is a unique opportunity for our colleagues to spend some time in Budapest and while enjoying the cultural, architectural, social, historical beauties and the special Hungarian hospitality of a thousand years old country, meet with colleagues worldwide and get the refresher in the field from the best.

The 20th Budapest Nephrology School is held in conjunction with the **11th International Symposium on Wine and Health** and the **8th World Kidney Day celebration**

The 19th Budapest Nephrology School was accredited by the European Accreditation Council for Continuing Medical Education (EACCME) for 30 European CME credits (ECMEC). The Course included 46 hours of scientific lectures and a final examination which can be locally evaluated according to national standards (in Hungary it is equal to 50 CME credits). We are expecting to have similar evaluation for the 20th Budapest Nephrology School as well.

Looking forward to seeing you in Budapest soon.

Sincerely yours,

CONCLUDING REMARKS

14:00 – 14:20 *László Rosivall, Hungary*

Commentary

„...., it is a pleasure for the International Society of Nephrology to recognize the tradition established by Dr. Rosivall and his colleagues in the heart of Europe, servicing so many colleagues in their quest for knowledge. Experts from various parts of the world have contributed to render the Budapest School into one of the best of its kind. We congratulate Dr. Rosivall on this momentous achievement.“

Jan J. Weening, Past President of ISN

„As a President of ERA-EDTA association I'm very proud that our Society is a sponsor of the Budapest Nephrology School that next year will celebrate the 10th Anniversary. The best comment about the quality of this school come from a letter I received from one of the participants at last school "I was fortunate to be one of the sponsored delegate by the ERA. I do not have any words to express my sincere gratitude to the ERA and especially you for considering me for the grant from ERA." I do believe there are no other words to add!“

Francesco Locatelli, Past President of ERA-EDTA

„The Semmelweis University under the dedicated leadership of Professor Rosivall has developed the tradition of an annual Nephrology Summer School in Budapest... The panel of experts is impressive and has included some of the top leaders of nephrology in the world. In recognition of the high standard of this meeting, both the International Society of Nephrology (ISN) and the European Renal Association (ERA) co-sponsor this important event.“

Eberhard Ritz, Past President of ISN

„Great work, worth to recommend to colleagues.“
