ERA-EDTA supports fellowships for ERA-EDTA Associate members!

As a consequence of the growing interest for the activities of ERA-EDTA from members living outside of Europe, countries bordering Europe and the Mediterranean Sea, the Council decided to create the "ERA-EDTA COMMITTEE FOR INTERNATIONAL AFFAIRS" (ComIA). ERA-EDTA is now launching the second call for the ComIA CLINICAL FELLOWSHIP PROGRAMME, offering young investigators and clinicians living in emerging countries outside of Europe, not bordering Europe or the Mediterranean Sea, an opportunity to apply for a clinical fellowship that they would not normally be able to obtain under the traditional ERA-EDTA Fellowship Programme.

What can we do in order to increase our understanding of calcific uremic arteriopathy (CUA) and give CUA patients our optimal medical support?

Calciphylaxis, also known as calcific uremic arteriopathy (CUA), is a rare disease. The estimated yearly incidence is below one percent among chronic dialysis patients. The prognosis of patients with CUA is however severely limited with a median survival time of about 1.5 years. CUA dramatically reduces quality of life due to debilitating pain, need for intensive daily wound care and often prolonged hospitalization.
