

European Board of Transplantation Medicine

Dear Colleagues,

The COVID-19 pandemic still impacts all fields of medicine, including organ transplantation. Rapid adaptation by the transplant community was needed in order to continue the transplant activity, transplant-related research and education.

The uncertain COVID-19 situation in Europe forced us to cancel the face to face exam on ESOT this year. The oral online exam will be MAINTAINED.

Exam candidates will receive further and detailed information in a sufficient time prior to the exam.

The candidate must have a minimum of 2 years of training in transplantation medicine.

The application for the EBTM exam started on March 15, 2021.

Due to pandemic the deadline for application will be prolonged up to July 15, 2021.

The application should be sent to:

Susanne Beckebaum, Chair of the European Board of Transplantation Medicine (EBTM) - susanne.beckebaum@googlemail.com
