

Menarini International Foundation, Milan
3rd International Meeting on Nephrolithiasis
“RENAL STONES IN PRACTICE: an advanced course”
Rome (Italy), June 8th – 10th, 2017

Presidents of the course: E. Croppi (Florence), G. Gambaro (Rome)

- **Goals of the course are:** "metabolic" diagnosis and metaphylaxis of nephrolithiasis, multidisciplinary treatment of renal stones
- **Strategic goal:** to establish in 24 European or Mediterranean hospitals small teams (1 nephrologist, 1 urologist) for the global treatment of nephrolithiasis.

- Only application from couples, a urologist and a nephrologist, from the same hospital will be considered.
- Participating should be less than 45 yrs old.
- They should have a stable position in their hospital. This does not mean having a tenure position, but a contract of at least few years (4-5) in front for allowing they work together for a sufficiently long period.
- Thus, we will not admit trainees since they can move in different hospital at the end of their training.

- Attendants will be fully covered by Fondazione Menarini, Milan.
- We expect to receive the application by February 28 from each couple with their CVs and a declaration of the corresponding heads of department attesting the position of the applicants.
- (please submit application to emanuele.croppi951@gmail.com)

Program of the Course

Thursday, 8 June 2017

Chairman: Williams

- | | |
|-----------|---|
| 2-3 pm | Lecture: Renal physiology and tubular disorders significant in nephrolithiasis (Capasso) |
| 3-4 pm | Lecture: Functional studies of the tubule and diagnosis of tubular disorders in nephrolithiasis (Unwin) |
| 4-5 pm | Lecture: Urinary physico-chemistry in nephrolithiasis and its investigation (Marangella) |
| 5-6 pm | Lecture: Stone analysis and clinical correlations (Daudon-Letavernier) |
| 5-6 pm | Discussion in small groups of clinical cases |
| 6-6.30 pm | Plenary presentation of the work carried out by small groups |

Friday, 9 June 2017

Chairman: Ita Heilberg

- | | |
|------------|--|
| 9-10 am | Lecture: Inherited disorders in nephrolithiasis and their diagnosis (Fuster) |
| 10-11 am | Lecture: Mineral metabolism disorders in nephrolithiasis and their diagnosis (Vezzoli) |
| 11-12 am | Lecture: Bone disease and nephrolithiasis, and diagnosis (Bushinsky) |
| 12 am-1 pm | Discussion in small groups of clinical cases |
| 1-1.30 pm | Plenary presentation of the work carried out by small groups |

Friday, 9 June 2017

Chairman: Tiselius

- 2.30-3.30 pm Lecture: Nephrolithiasis of intestinal origin. (Lieske)
- 3.30-4.30 pm Lecture: Nephrolithiasis and urinary tract infections (Tasca)
- 4.30-5.30 pm Lecture: Idiopathic calcium nephrolithiasis (Hess)
- 5.30-6.30 pm Discussion in small groups of clinical cases
- 6.30-7 pm Plenary presentation of the work carried out by small groups

Saturday, 10 June 2017

Chairman: Strazzullo

- 8.30-9.30 am Lecture: Nutrition and nephrolithiasis, and the nutritional investigation (Trinchieri-Ferraro)
- 9.30-10.30 am Lecture: Secondary prevention of nephrolithiasis (Goldfarb)
- 10.30-11.30am Lecture: Urological treatment of renal stones (Sarica)
- 11.30am-1pm Workshop: the cooperation between urologists and nephrologists (Buchholz)

FACULTY

Riccardo Bartoletti (Florence)
Dominique Bazin (Paris)
Noor Buchholz (Dubai)
David Bushinsky (New York)
Giovanni Battista Capasso (Naples)
Emanuele Croppi (Florence)
Adamasco Cupisti (Pisa)
Alessandro D'Addessi (Rome)
Michel Daudon (Paris)
Pietro Manuel Ferraro (Rome)
Daniel Fuster (Bern)
Giovanni Gambaro (Rome)
David Goldfarb (New York)
Ita Heilberg (São Paulo)
Bernard Hess (Zurich)
Dominique Letavernier (Paris)
John Lieske (Rochester)
Martino Marangella (Turin)
Domenico Prezioso (Naples)
Kemal Sarica (Istanbul)
Christian Seitz (Wien)
Pasquale Strazzullo (Naples)
Andrea Tasca (Vicenza)
Hans Gorang Tiselius (Stockolm)
Alberto Trinchieri (Lecco)
Robert Unwin (London)
Giuseppe Vezzoli (Milan)
Corrado Vitale (Turin)
Jim Williams (Indianapolis)
